

# **PUBLIC NOTICE**

**By the Owens Corning Guelph Glass Plant**  
247 York Road, Guelph, Ontario N1E 3G4

## **Planned Request to the Ontario Ministry of the Environment and Climate Change for a Site-Specific Air Standard under Ontario Regulation 419**

In accordance with the Ontario Ministry of the Environment and Climate Change (Ministry) requirements for public consultation, the Owens Corning Guelph Glass Plant (Owens Corning) is providing notification to the public of its intent to submit a request for a site-specific standard under Section 32 of Ontario Regulation 419: Air Pollution – Local Air Quality. Requesting and meeting a site-specific standard is one of the compliance options provided by the Ministry. A site-specific standard can be made available to a facility when they are working to reduce their air emissions, as much as possible, with technology-based solutions and best practices.

In preparation for upcoming changes to air standards on July 1, 2016, Owens Corning will submit a request in late March 2015 to consider a site-specific standard for hexavalent chromium. If approved by the Ministry, the site-specific standard will allow the Owens Corning Guelph Glass Plant to maintain compliance with Ontario Regulation 419 while undertaking continuous improvement efforts to work toward meeting the new provincial standard. Owens Corning is committed to conducting its operations in a manner that protects the public's and our employees' health and safety and the environment.

Interested members of the public are invited to a Community Information Session where representatives from Owens Corning and the Ministry will be available to answer questions and listen to community input. Owens Corning will have poster boards available for the community's review to help explain the process and the need for a site-specific standard.

### **OWENS CORNING COMMUNITY INFORMATION SESSION**

**Thursday, March 5, 2015**

**Afternoon Session: 3-5 pm; Evening Session: 7-9 pm.  
Stop by anytime.**

**Italian Canadian Club of Guelph
